

EV Battery Capacity and Battery Metals Tracker

ONLINE TRACKER AND VISUAL ANALYTICS PLATFORM

Online Tracker and Visual Analytics Platform Updated Monthly, Historical Data Back to 2004 Interactive Maps, Charts and Analytical Tools

Suite of 5 Interactive Dashboards:

1. EV Model Profiler

- Over 1,200 models covered (BEV, PHEV, HEV)
- Battery specs and metals loading
- Monthly market share in every country

2. EV Sales by Country and Region

- Tracking 100+ nations in four regions
- Passenger BEV, PHEV and HEV models
- Every market at your finger tips

3. EV Sales by Make and Model

- Over 1,200 models from 100+ automakers
- Filter and drill-down by model, make, country, region EV type and more

4. EV Battery Capacity Deployment

- Monthly battery capacity (kWh) deployed by region, country, make, model, cell supplier, EV type, cathode chemistry, anode and more
- Granular breakdown of cathode and anode types in use (i.e. NCM 6-, 7-, 8-Series, etc.)

5. EV Battery Metals Consumption

- Battery metals and materials consumption by region, country, EV make, EV model, cell chemistry, cell supplier, EV type and more
- Covering lithium, nickel, cobalt, manganese, graphite, aluminum, copper, titanium, REEs
- Tracking demand growth month-by-month

Building on ongoing EV registrations in over 100 countries, our web-based platform helps users track global monthly passenger EV sales, consumption of battery metals and materials, deployment of battery capacity onto roads, and the ever-evolving competitive landscapes of cell chemistries and cell suppliers.

The tracker's intuitive user interface and interactive charts and filters let users quickly zoom in on specific regions, countries, automakers, models, cell suppliers, cell chemistries, battery materials and more.

Spend less time collecting, analyzing, and fact-checking data, and more time making informed decisions.

Essential tool for:

- Automakers
- Battery Manufacturers
- Cell Suppliers
- Cathode and Anode Producers
- Battery Metals Mining Companies
- Informed Investors and Financiers
- Government Agencies
- Industry Stakeholders
